*This is the amount originally submitted to Congresses by the Secretary of the Treasury as estimated to be necessary under the permanent specific and permanent indefinite appropriation.

From this statement it appears that the appropriations of the Fifty-first Congress, when Mr. Reed was Speaker of the House, and the President, House and Senate were Republican were, in round numbers \$988,000,000, while the appropropriations of the Fifty-second Congress, when the House was Democratic and Mr. Crisp was Speaker, were in round Boiling Springs, N. In the last election in this Cleveland county, Mr. J. B. Byers, Populist, was elected over J. S. Byers entered suit, which would have been tried at the suit of the second Congress, when the House was Democratic and Mr. Crisp was Speaker of nound numbers \$988,000,000, while the appropriations of this Congress, with President, House and Senate all Democratic, are in round numbers \$990,000,000. Moreover, the late sale of thirty-year 4 per cent United States bonds, the payment of appropriations for this and the next fiscal year by \$2,000,000 making the grand total actually appropriated by this Congress in round numbers \$993,000,000. This exceeds the appropriations made by the Fifty-first Congress, called by our Democratic friends "the billion dollar Congress," in round numbers, by \$5,000,000.

We elip the following from an editorial in the Philadelphia Record. The editor of that paper is Hon. Wm. M. Singlerly, who was the Democratic candidate for Governor of Pennsylvania at the last election. The editorial is as follows:

It begins to look as though no ombination of language can be found to express the selfish degradation to which the last Congress descended. And it was a Demoeratic Congress. The drain on his pocket since 1873 has given him a clear insight into the cause of his poverty. Here is the way he sums up the situation: He owed Jones \$1,000, and W. H. Neal, 1,000 bushels of wheat would settle H. G the debt. But Jones conspired with Dr. M.McI Tatum, C. F. R. Kornegay other gold sharks. They struck down half of the currency by demonetizing silver, and now Farmer Anderson must pay 2,000 bushels of wheat to the \$1,000 debt. In o her words, his debt has been doubled by this change from the double standard to the single gold standard. Our federal, state, county, mun

cipal and individual indebtedness in this country is forty thousand mil lion dollars. This is practically doubled by the adoption of the gold standard. If Jones knows what i good for him he had better not tell Farmer Anderson that the change is a blessing.
